

The VersaTest product line provides solutions that provide a tremendous breadth of choice, both in the types of testing and the skill-sets required to use the product. This datasheet captures the major differences between the solutions.

CHARACTERISTICS	VersaTest Classic/NSK	VersaTest Classic/MP	VersaTest Simulator	VersaTest Automator	VersaTest OEM
Operating Environments					
HP NonStop Kernel	√				
Java (Includes Windows, Linux, AIX, Sun Solaris, HP OSS)		√	√	√	√
Operator Interfaces					
Desktop GUI (VWIN)	√	√			√
Command line	√	√	√	√	√
Web Browser			√	√	√
Quality Center ⁴				√	√
Driver Development / Maintenance					
Custom scripts (VTALK)	√	√			√
VTALK Extensions		√			√
XML Message Support		√			√
ASN.1		√			√
Prepackaged DFS Driver Library			√	√	√
Online Driver Install / Update			√	√	√
Test Operations					
Test Assembly					
- Custom / Scripted	√	√			√
- GUI			√	√	√
Test Execution					
- Custom / Scripted	√	√			√
- Automated			√	√	√
Test Result Validation					
- Log Comparison	√	√			√
- Custom / Scripted	√	√			√
- Automatic			√	√	√
Communication Protocols/ Middleware					
TCP/IP	√	√	√	√	√
X.25	√	√	√	√	√
Websphere MQ	√	√	√	√	√
VT/IPC	√	√	√	√	√
XPNET	√	1	1	1	1
SNA	√	1	1	1	1
Pathsend	√	1	1	1	1
Async	√	1	1	1	1
Bisync	√	1	1	1	1
OSI TS	√	1	1	1	1
TLAM	√	1	1	1	1
IPC	√	1	1	1	1

CHARACTERISTICS	VersaTest Classic/NSK	VersaTest Classic/MP	VersaTest Simulator	VersaTest Automator	VersaTest OEM
Product Features					
Driver types supported					
-POS devices	√	√	√	√	√
- ATM	√	√	√	√	√
- Interchange	√	√	√	√	√
- Hosts	√	√	√	√	√
- Hardware Security Modules	√	√	√	√	√
- Biometric terminals	√	√	√	√	√
- Green-screen terminals	√	√	√	√	√
- Radar heads	√	√	√	√	√
- Web interfaces	√	√	√	√	√
- Custom	√	√	√	√	√
Type of Testing	√	√	√	√	√
- Functional	√	√	√	√	√
- System	√	√	√	√	√
- Regression	√	√	√	√	√
- Certification			√	√	√
- Performance	√	√	√	√	√
- Custom Benchmarking	√	√			√
Embeddable					√
Private Label Branding					√
Add-ons / Options					
Quality Center Plug-in				√	√
6530/3270 Terminal Simulation	√				
Developer Add-on ²			√	√	
Proxy Line Handler (PLH) ³	√	√	√	√	√
Licensing					
Per-server License ⁵	√	√	√	√	√
- CPU-based	√				
- Transaction-based (TPS)		√			
- Feature-based			√	√	
Developer License ⁶		√		√	
Enterprise License	√	√	√	√	√

Notes:

- √ = Standard Feature
- 1: Feature available through optional NSK Proxy Line handler (PLH)
- 2: Developer Add-on allows access to all VersaTest Classic/MP features in VersaTest Automator
- 3: Proxy Line Handler allows access to all NSK communication methods from other products
- 4: Use of Quality Center requires optional Quality Center Plug-in
- 5: Server License does not impose a limit on the number of users or number of application instances per physical server, but license may have other limitations / feature restrictions as noted, such as TPS limits.
- 6: Developer License is for a single desktop and additionally requires a Server License
